

Exeter City Council

LOCAL NOTICE TO MARINERS

NO. 02/15

**New LED Sector Light (VLS-46) to replace Exmouth
Approaches leading lights**

A single white light will indicate the old transit and there will be red and green sectors either side to show if to port or starboard of track on entry.

This will be a permanent change and the navigational chart and sailing directions will be updated accordingly by the UKHO at the next issue

The front leading light will be removed during week commencing 2nd February 2015 to allow installation of the new sector light.

The existing rear light will remain in place until the completion of the work
