16th. September 2011.

To: All Club Members

Extraordinary General Meeting – Saturday 29th. October – 8.00pm.

Dear club member,

A proposal to construct pontoons and a walkway linked to Ashes Quay connecting the Quay to permanent navigable water has been discussed at length and approved by the General Committee.

This investment represents a considerable expense to the club and your committee wish to get as many members involved in the decision as possible by calling an Extraordinary General Meeting on Saturday 29th. October 2011 at 8.00 pm. After a presentation by officers of the club recommending the proposed development, the club's membership would be invited to vote on the issue. Under rule 57 only members attending this meeting would be eligible to vote.

If the proposal is carried, then a further presentation will set out ways of raising the shortfall in capital required to fund the project and calling for volunteers to carry out some of the work involved.

We do hope as many members as possible can attend.

Yours sincerely,

Dermot Nolan, (Honorary Secretary)
